SlainT Coin Whitepaper

SlainT Coin (SLN) is a decentralized digital asset designed to empower users with secure, transparent, and innovative DeFi solutions. Our mission is to build a powerful ecosystem that integrates blockchain technology into everyday financial systems while maintaining scalability, transparency, and community-driven governance.

Tokenomics:
• Token Name: SlainT
• Symbol: SLN
• Total Supply: 1,000,000,000 SLN

- Network: Binance Smart Chain (BEP20)
- Allocation:
  - 40% Public Sale
  - 25% Ecosystem Development
  - 20% Team & Advisors
  - 10% Liquidity
  - 5% Community Rewards

Roadmap:
- Q4 2025 – Token Launch, Website, and Whitepaper Release
- Q1 2026 – DeFi Platform Beta (Staking, Farming, Lending)
- Q2 2026 – CEX Listings, Mobile Wallet Integration
- Q3 2026 – DAO Governance Implementation
- Q4 2026 – Expansion into Cross-Chain Ecosystem

DeFi Use Cases:
SlainT DeFi platform offers users an array of financial tools:
- Staking – Earn passive income by locking tokens.
- Yield Farming – Provide liquidity and earn rewards.
- Lending & Borrowing – Peer-to-peer lending with collateralization.
- Governance – Community-driven decision making through DAO voting.

Conclusion:
SlainT Coin aims to redefine decentralized finance by building a secure, scalable, and user-friendly ecosystem. Through innovation and community support, SLN is positioned to become a leader in the blockchain-powered DeFi revolution.
